

# UV Comes to Life

## 4th Annual Print UV Conference

### March 6-8 Wynn Las Vegas

PRINT  
UV  
11

Visit [PrintUV.com](http://PrintUV.com) for details to...

- Network with peers in the UV Print Industry
- Uncover hidden growth opportunities for your business
- Dive deep into core UV processes with experts in the fields of:
  - Inks and Coatings
  - Substrates
  - Best Practices
- Hear case studies from successful UV print initiatives throughout North America
- Meet with the leading suppliers in the UV industry

# Already in its 4th year, the Print UV Conference is a one-of-a-kind event for printers serious about differentiating themselves with UV printed media.

Sponsored by key industry participants, the conference is designed to encourage, promote and sustain the growth of UV printing in the graphic arts industry. In 2011, the Print UV Conference is focusing on key pressroom topics through real life case studies and small group discussions with experts.

Join us for in-depth discussion and instruction on the important processes critical to successful UV printing, including:

- **Coatings:** Maximize your effectiveness and develop skills in techniques from high gloss to matte and everything in-between.
- **Synthetic Substrates:** Real life case studies and experts guide you through the difficult elements of UV printing on non-porous substrates.
- **UV & Press Maintenance:** Share tips and tricks on getting the best from your press and UV system while extending its life.
- **Ink on Paper & Board:** Seemingly simple, but experts and other printers share secrets to overcoming everyday problems.
- **New Technologies:** Including the progress of LED-UV and food contact chemistry.

All topics will cover everything from the basics to the most advanced techniques that separate UV printers from all others.

Visit **PrintUV.com** for more information and to register online. Or, fill out the form below and fax with your credit card number to (715) 425 - 5200, or mail your registration with payment to:
